

## Sulfur - 90 Fertilizer Grade

Sulfur is an essential plant nutrient required by all crops for optimum production. Sulfur is essential for the growth and development of crops and can help activate some of the key functions in your crops that secure improved produce quality. These functions include the formation of chlorophyll that permits photosynthesis by which plants produce starch, sugars, oils, fats, vitamins and other compounds. Sulfur also plays a key role in stimulating healthy growth and crops and assists in protein production, activation of enzymes, increasing crop yields and improving your overall produce quality. Sulfur deficiencies can be easily corrected with Sulfur fertilizers.

**Cas Number: 7704-34-9 EINECS Number: 231-722-6**

Guaranteed	90% Sulphur
Analysis Size Guide	295
Number Abrasion	0.50%
Bulk Density	1,163 kg / m3
Angle of Repose	27.0 Degrees
Crushing Strength	11.4 kgf

**Packing Options: 50 lb bags, Big Bags/Totes**
